2.- Principles and Models of Circular Economy

Activity 2

Short quiz (6 MCQs): CE principles and terminology

Co-funded by
the European Union

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

1. What is the primary goal of the circular economy?

- A. Increase industrial production
- B. Maximize consumption of natural resources
- C. Keep materials in use for as long as possible
- D. Replace recycling with landfilling

Answer: _____

2. Which of the following represents the three core principles of the circular economy?

- A. Produce, Consume, Dispose
- B. Reduce, Reuse, Recycle
- C. Extract, Manufacture, Sell
- D. Import, Export, Trade

Answer: _____

3. In circular economy terminology, “decoupling” refers to:

- A. Increasing waste generation with economic growth
- B. Separating economic growth from environmental degradation
- C. Reducing imports of raw materials
- D. Eliminating industrial production

Answer: _____

4. Which of the following best describes the current status of circular economy implementation in Central Asia?

- A. Fully developed and implemented
- B. Declining due to lack of interest
- C. In early stages with low recycling rates
- D. Already aligned with EU standards

Answer: _____

5. What is the main function of Circular Economy Action Plans (CEAPs)?

- A. Replace national policies
- B. Provide direction and identify actions for circular transition
- C. Increase waste production efficiency
- D. Limit private sector involvement

Answer: _____

6. Which of the following is a key benefit of the circular economy?

- A. Increased dependence on virgin materials
- B. Higher greenhouse gas emissions
- C. Reduced waste and improved resource efficiency
- D. Elimination of all industrial sectors

Answer: _____

1. Answer Sheet

1. C

2. B

3. B

4. C

5. B

6. C
